Biotechnological deodorizing, descaling cleaning block for urinals

DESCRIPTION

Powerful biotechnological deodorising and descaling cleaner for urinals. Polbio Enzybloc ensures the destruction of bad smells by triple mechanism: a smell neutralizer, a long-lasting fragrance and finally a combination of enzymes, bio-acids and beneficial bacteria wich destroy the source of the smells and the limestone deposits.

USE

Place the Enzybloc in the urinal bowl. Replace the Enzybloc when completely dissolved (lifespan: 2 to 4 weeks).

DOSAGE

- One Enzybloc (25gr)/urinal

TECHNICAL CHARACTERISTICS

- Color: green
- Fragrance: peppermint
- External conditions (temperature, light ...) can significantly modify the appearance of the product. These changes do not affect its quality.

Pollet does not advise using probiotic cleaners in certain limited hospital areas: high and very high-risk zones (zone 3 and 4).

STORAGE

Keep the product in its original closed packaging. Do not expose to extreme cold.

ECOLOGICAL INFORMATION

- Biodegradable product (CE 648/2004)
- Packaging 100% recyclable
- Beneficial effect on septic tanks and waste water
- Production 100% carbon neutral
