

AUTORIMS
Wheels cleaner

DESCRIPTION

Highly effective formula that removes tough road grime & brake dust on ALL WHEEL SURFACES without damaging any portion of wheel. Tough, penetrating neutralizing agents dissolve & lift the dirt by breaking it down & washing it away. Safe for chrome, clear-coated, polished & unpolished aluminum and factory painted wheels.

ADVANTAGES

- 1. Safe for all wheels
- 2. Phosphate free

TECHNICAL DATA

pH (as is).....	1.0 - 1.5
Density (20°C).....	1.03 g/cc
Colour.....	transparent
Fragrance	None
Characteristic	None
Biodegradability	Complete
Flash Point.....	More than 53 °C
Freezing Stability.....	Keep out from freezing

La biodégradabilité a été déterminée selon l'essai no. 301D de l'OCDE.

DIRECTIONS

SHAKE WELL. Should be used in well ventilated area. 1. Rinse wheel with water before use. CLEAN ONE WHEEL AT A TIME. 2. Hold sprayer 2 feet away from wheel. APPLY LIBERALLY TO A COOL WHEEL. Spray entire wheel applying heavier amounts on grooved areas. 3. Allow product to penetrate surface for 15 seconds. Dirty wheels may require agitation with brush or second application. 4. Rinse thoroughly with strong stream of water & dry wheel with 100% cotton, terry cloth towel.
