

# Debonaire®

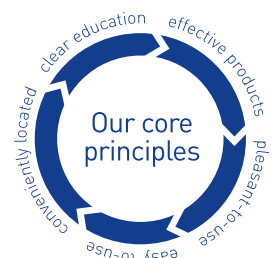

## Foaming Anti-Bacterial Skin Cleanser (Green)

**Usage:** Light to moderate soil conditions. For use as an anti-bacterial handwash in areas where an extra degree of bacteria reduction is required.

- Instant Foam** Very little water is required to generate a rich lather
- Quick Rinse-Off** Reduces water consumption and wash-up time. Leaves sinks clean
- Low Active Content** Foam generated is 20 times the actual volume of cleanser. Less cleaning material than normal is actually in contact with the skin, thereby reducing the possibility of drying or irritation
- Contains Triclosan** A proven and effective anti-bacterial agent which kills bacteria
- Low Viscosity** Cartridge drains completely
- Added Emollient** Great afterwash feel. Leaves skin smooth and conditioned
- pH of 5.5 to 7.0** Close the skin's natural pH reducing the possibility of irritation
- Lightly fragranced** Pleasant during use but leaves no strong afterwash perfume smell
- Packaged in recyclable containers** Reduces landfill
- Biodegradable** No polluting ingredients

THE PRODUCT MAY BE USED IN FOOD PROCESSING ESTABLISHMENTS
